CALIFORNIANS ARE AFRAID OF BUGS EXCITED FOR FEAR HAWAII MAY SEND A FEW OVER THERE.

Apply to the Federal Government
for Protection—Resulting in
an Order by Postoffice
Department.

(Staff Correspondence The Republican.)

WASHINGTON, Sept. 7.—It appears that the state of California, always on the lookout for bugs, has become excited about the possibility of the importation of insect pests from Hawaii and the Philippine Islands, and has applied for protection to the federal government. The result of this appeal is that the postoffice department at Washington has just issued an edict which is as follows:

"Whereas, the state board of horticulture of the state of California has represented to the postoffice department that dangerous insect pests exist in the territory of Hawaii and the Philippine Islands which are not known in any part of North America, and which if introduced therein would do great damage to fruit and plants and the secretary of agriculture having confirmed such representation:

"Therefore, it is ordered that all postmasters at ports of entry on the Pacific coast intercept and forward, under cover of penalty envelopes, in the state of California to the postmaster at Sacramento; in the state of Oregon to the postmaster at Salem, and in the state of Washington to the postmaster at Olympia; all mail matter containing fruit plants emanating from the territory of Hawaii or the Philippine Islands:

"The postmasters at Sacramento, Cal.; Salem, Ore., and Olympia, Wash., will submit all such matter received by them to their respective state boards of horticulture, the state board of horticulture, Sacramento, Cal.; the state board of horticulture, Salem, Ore., and the commissioner of horticulture, Olympia, Wash., for the inspection of such board or commissioner before the same is forwarded to the addressee, in order to ascertain whether the fruit or plants therein contain any dangerous insects.

"Postmasters at port of entry where such matter is first intercepted and forwarded to any of the postoffices herein named will send a notice thereof to the addressee, giving the name of the postoffice to which sent, of the board or commissioner to which it will be submitted, and the reasons for such action.

"All packages of fruit or plants submitted to a state board or commissioner for examination under these instructions should, when no dangerous insects are found therein, be promptly forwarded to the addressee. If the original wrapper on any package has become so torn, or the address so defaced as to render it unsafe to forward the same to destination therein, it should be enclosed in a penalty envelope.

"When any package contains infected fruit or plants, the postmaster will notify the addressee and detain the same until the state board or commissioner can arrange with the addressee or take such other proceedings as may be proper for the destruction thereof.

"This order will apply to registered matter, but sealed matter must not be opened and submitted for examination to a state board or commissioner without the consent of the addressee. Where such matter contains or is believed to contain fruit or plants, it will be forwarded to the proper postmaster in accordance with these instructions, and notice thereof sent direct to the proper state board or commissioner, and to the addressee, informing the latter of the name of the postoffice to which sent, of the board or commissioner to which it will be submitted, and the reason for such action. In order that the state board or commissioner may correspond with the addressee or take such other action as may be proper. Upon authority of the addressee sealed matter may be opened and submitted to the state board or commissioner for examination."

Japanese Are Leaving.

The Japs are still flocking to this city by every steamer. The Kinan brought ninety-five from Hawaii and Maui, and the Keanhou arriving early Sunday morning brought about thirty, who all came from Kauai. The Japs from Kauai were sent away from the various plantations there because they did not care to work regularly and were interfering with the other laborers. Most of these people have a goodly sum of money saved up and it seems that when they get a little ahead in the goods of this world they do not appreciate that they have still to work. It was thought for the best interests of the plantations to have the drones sent away and so they were given orders to move, which they obeyed with alacrity. Some of them left in the Doric Sunday morning for Japan, where the money they have will keep them a long time above want.

Cured of Chronic Diarrhoea After Thirty Years of Suffering.

"I suffered for thirty years with diarrhoea and thought I was past being cured," says John S. Holloway of French Camp, Miss. "I had spent so much time and money and had suffered so much that I had given up all hopes of recovery. I was so feeble from the effects of the diarrhoea that I could do no kind of labor, could not even travel, but by accident I was permitted to find a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and after taking several bottles I am entirely cured of that trouble. I am so pleased with the result that I am anxious that it be in reach of all who suffer as I have." For sale by all dealers and druggists. Benson, Smith & Co., general agents Territory of Hawaii.

After several days' illness the infant daughter of Bernice Scott, residing on Keamake street, near Wilder avenue, died Sunday of enteritis. The remains received burial in the Makiki cemetery yesterday.

Gong Ying, a Chinaman aged 51 years, who died at the Chinese hospital Saturday as a result from the long excessive use of opium, was buried with Oriental rites and incantations Sunday at the Monoa cemetery.

The Amateur orchestra will meet to night for a rehearsal at the Young Men's Christian association. The musicians are making great progress and displaying much proficiency in their work of late. Members are requested to meet promptly at 7:45.

A Japanese settlement on Merchant street, next to Lewers & Cooke's lumber yard, is becoming a nuisance to the neighborhood. The stench so often met with during the plague times in the neighborhood of the dwellings of the Japanese in the old burned district is beginning to make its presence felt in the Merchant street abode.

N. J. Levitt, a sailor on the American ship Florence, was injured by the falling of a coal tub yesterday while the vessel was discharging at the Railroad wharf. He was taken to the Queen's hospital, where Dr. Ames found it necessary to amputate one of his great toes and a part of the middle toe, which were both badly crushed. The man is thought to have received an injury to his back also.

There was a special meeting at the Japanese church after the regular Sunday services Sunday evening to express sorrow over the death of H. Chiujo at the Japanese benevolent hospital, Kapalama, September 13, at the age of 23. Deceased was a faithful Christian. R. Susumago read the biography of the young man and T. Kimura told of his many excellent qualities. There were about 200 people present, among the number being relatives and friends of the deceased.

In Their Infancy

They should be exterminated. They soon grow up and when full grown what a pest they are! We are talking about

Rough on Bugs

Is a mixture that will do the work shortly after it is sprayed around the house. It not only kills roaches but has the same effect on

All Bugs.
